Dear Watertown Boys & Girls Club Families,

Please read this important communication regarding our response to COVID-19.

Although there have been no known cases of the COVID-19 virus in Watertown, there have been confirmed cases within surrounding communities, which fall within our service area. Because of this, we have made the decision to close the Club from Friday, March 13th through Sunday, March 15th, as a precautionary measure so that the facility can be cleaned and disinfected. There will be no activities during this time period, including afterschool drop in, swim lessons, biddy basketball or our swim team banquet.

Once additional information becomes available, we will update our website and Facebook page. Decisions will be made day to day, or hour to hour as needed. Please check back often for updates.

Our number one priority at the Club is safety! To that end, we are working closely with Watertown Health Department, Watertown Public Schools and Watertown Police Department to ensure the health and safety of our WBGC community.

If you or your child becomes symptomatic with: a fever, severe coughing or difficulty breathing and you have been at the Club in the past two weeks, please alert us by calling 617-926-0968 or emailing info@watertownbgc.org. This information will help us to identify if further actions, notifications or other precautions are necessary.

Please don't hesitate to reach out with any questions or concerns via email info@watertownbgc.org or phone: 617-926-0968.
